

Sprint #1

Meeting #1

Date & Time: 2026-01-30 5:30 P.M

Location: Hall Building 8th floor

Present: Ashely, Yana, Nicolas, Mathias, Rami, Youssef

Absent (if any):

1. Agenda

- **Sprint #1** is Friday February 6th (next week) at 6:30 PM (Ashley joins online)
- We need to demo **at least one** functionality from the functionality below

1. User Account Management

- User registration and login
- Profile management (diet preferences, allergies)

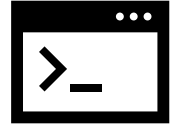

- When2meet for a meeting before the demo next week? Meeting Thursday 5th 4 PM to 5 PM
- We need to create milestones (ie. Sprint #1, etc) and label (i.e bug, enhancement, question, etc) for our issues on Github

2. Sprint Progress Update

List of work completed since last meeting. Referencing GitHub issues if possible

It would be great to have a quick explanation of everything in the repo (maybe Youssef ?)

- ☒ Creation of repo README file
- ☒ Sprint planning document
- ☒ User stories
- ☐ User stories as issues in GitHub (w/ correct identifier)

- ☐ Task Breakdown
- ☐ Member Contribution
- ☒ Meeting Minutes file
- ☐ Functionality Demo

1. GitHub setup and initialization	• README file with <ul style="list-style-type: none">◦ Description of the Project◦ Team Members and Roles
2. README file	• The Sprint planning (see Appendix A).
3. Sprint Plan	• User stories for Sprint 1 (Use GitHub issues). Identifying them with the prefix US.##
4. User stories and Task breakdown	• Task Breakdown (derived from user stories, and assigned to at least one team member). Use GitHub issues , with the prefix Task.##
5. Code to demo	• Detailed log of each team member's contribution including time spent on each activity (document)
	• Meetings Minutes file (minutes files must be named <teamName_Sprint#_meetingnumber_meeting_date>)
	• You need to demo at least one functionality from "User Account Management" for example login functionality.

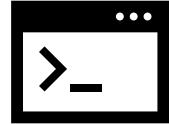

3. Decisions Made

Decision made during the meeting.

Extra meetings when needed Thursday from 4 to 5 PM.

Meeting an hour before the lab (5:30PM) every week.

Task were assigned points see Sprint Planning

4. Action Items

Task assigned until next meeting, linked to Sprint planning / Task Breakdown

Task Description	Story Points (Fibonacci)	Due Date	Priority	Risk	Assigned Members
<ul style="list-style-type: none"> Create a registration page including information fields (email, username and password) <ul style="list-style-type: none"> Input boxes for: email, username, password Create submit button for registration information Create button to redirect user back to login page 	2	February 6	High	Medium	Mat + Rami
<ul style="list-style-type: none"> Fields validate inputs: <ul style="list-style-type: none"> Email is of form [a-z].[a-z]@[a-z].com Password of length >8, 1 uppercase, 1 lowercase, 1 number 	3				Ashley + Yana
<ul style="list-style-type: none"> Implement backend logic for registration submit button <ul style="list-style-type: none"> Creates new user record in database (email, username, password) Signals if registration is successful Redirects users to login/greeting page after successful registration User Session 	5				Youssef
<ul style="list-style-type: none"> Create a login page including information fields (email, username and password) <ul style="list-style-type: none"> Input boxes for: email, username, password Create submit button for login information Create button to redirect user back to register page 	1	February 6	High	Low	Mat + Rami
<ul style="list-style-type: none"> Implement backend logic for user input <ul style="list-style-type: none"> cross reference info in database (user and password match) Signal incorrect/mismatched user and password User session 	3				Youssef
<ul style="list-style-type: none"> Create a manage profile page including profile sections <ul style="list-style-type: none"> Diet Preferences: None, Halal, Vegan, Vegetarian Allergies: None + generic allergy options Update button to save changes Cancel button to revert edits back to last saved state Display error/success messages 	5	February 6	Medium	Medium	Nick (profile changes)
<ul style="list-style-type: none"> Validate entry in profile preferences page <ul style="list-style-type: none"> Validate a selection is made for all fields More than one allergy can be selected but not while None is selected Display error message in case of invalid input 	2				Ashley + Yana
<ul style="list-style-type: none"> Implement backend logic for "Update" button <ul style="list-style-type: none"> Update user preferences in database 	3				Youssef

5. Next Meeting

Date: January 5th

Time: 4 PM

Planned Focus: Demo testing
