## 1. Agenda

- Sprint #2 is Friday February 27<sup>th</sup> at 6:30 PM
- This is the final check for content and deliverables for sprint #2.

## 2. Sprint Progress Update

*List of work completed since last meeting. Referencing GitHub issues if possible*

Let's check what that we have everything.

### Recipe Management

- Create, edit, and delete recipes.
  - Recipe attributes (ingredients, prep. time, prep. steps, cost, etc.)
- Search recipes
- Filter recipes
  - Time, difficulty, cost, dietary tag, etc.

Plus any incomplete tasks from Sprint 1

- 
1. Plan for this sprint the same way that you did for Sprint 1.
  2. Write the user stories for these sprint features (as issues in GitHub); decompose them into tasks, and assign them to team members.
  3. Write 2 acceptance tests (in GitHub as issues) for the user stories identified in the first sprint. Remember to label them as “acceptance test” (AT) and link them to a user story->task. See [Appendix A](#).
  4. Develop and implement each feature.
  5. Set up your Continuous Integration pipeline in your repository.
  6. Upload the meeting minutes

### 3. Decisions Made

*Decision made during the meeting.*

No decision made during the meeting purely bug fixes

### 4. Action Items

### 5. Next Meeting
